Mr. Stoff's correspondence was provided in the Board's meeting packet. Mr. Stoff reported he will be meeting with the MA Department of Environmental Protection early next year about CSOs. Mr. Stoff expressed support of Somerville tracking reports on CSOs that come in from Arlington more effectively to improve data collection and analysis.

Ms. Eagan asked if a follow-up/report logging system currently exists in Somerville regarding Arlington-based complaints. Mr. Stoff clarified that the system exists but isn't as effective as somewhere like Cambridge where they utilize a 311-style system.

The Board thanked Mr. Stoff for his update.

3. Hearing: Noise Abatement Bylaw Citation Appeal: John's Landscape Service Inc.: July 21, 2025 at 29 Mass Ave

The Board stated the procedure for this and all following Noise Abatement Bylaw hearings to be taking place at this meeting. Attorney Cunningham stated that all deliberation would be based off of the complaint information and what is presented during the hearings.

Dr. Rice motioned to open the hearing. 2nd by Ms. Eagan. All in favor.

Director Foley presented the facts of the citation issued to John's Landscape Service based on events at 29 Mass Ave on July 21, 2025. This citation was issued due to a report of Leaf Blower use before 7:30 am at the aforementioned property.

John Tighe, owner of John's Landscape Service, stated that he is not against the bylaw but does take issue with the citizen enforcement aspect of the bylaw. He also stated that he does not believe any machinery was used before 7:30 am regarding this citation, which is why he appealed it.

Dr. Walsh-Condon asked whether this was a residential or commercial property, and Tighe confirmed that it was a CVS. Dr. Walsh-Condon asked how long this job would generally take from arrival to departure, and Tighe stated it would take about an hour. Dr. Walsh-Condon then asked if blow out with electric leaf blowers happens at the end, and about how long that would take. Tighe confirms it takes place at the end, and that it takes 15 minutes. Dr. Walsh-Condon asked how this complaint was received, and whether it was about gas leaf blower use, or the time at which it took place. Director Foley states that both of those things fall under the Arlington Noise Abatement bylaw, and that the complaint was received via the Docusign reporting form on the Health Department website.

Dr. Rice asked if the complainants were also invited to attend these hearings, and Director Foley confirmed that they were.

Attorney Cunningham stated that the nature of the bylaw is neither the purpose nor scope of these hearings, and that the Board should only consider the facts of each citation for the purposes of these hearings.

Ms. Eagan asked if there was a timestamp on the submission of complaints. Director Foley and Attorney Cunningham explained that the submitted Docusign reports come to the Health Department via email once the complainants submit them. After observing a violation, complainants are requested to submit their reports through the Docusign within 7 days.

Dr. Rice motioned to close the hearing. 2nd by Ms. Eagan. All in favor.

Dr. Walsh-Condon motioned to accept the appeal and dismiss the violation. 2nd by Dr. Rice.

1. Dr. Walsh-Condon, Aye
2. Dr. Rice, Aye
3. Ms. Eagan, Aye

Vote: 3-0 (unanimous) in favor of the motion.

4. Hearing: Noise Abatement Bylaw Citation Appeal: John's Landscape Service Inc.;
September 17, 2025 at 4 Longmeadow Rd

Dr. Rice motioned to open the hearing. 2nd by Ms. Eagan. All in favor.

Director Foley presented the facts of the citation issued to John's Landscape Service based on events at 4 Longmeadow Rd on September 17, 2025. This citation was issued due to a report of gas powered leaf blower use at the aforementioned property.

Mr. Tighe stated that the photos included with the complaint for this citation are of electric leaf blowers.

Dr. Walsh-Condon asked if Mr. Tighe uses both gas and electric leaf blowers, and when he would use each of them. Mr. Tighe confirmed that he does, and their use is based off the restrictions of the community in which they are working. Dr. Walsh-Condon asked how long an electric leaf blower battery lasts, and Mr. Tighe states it is 4-6 hours when on low, but only about 30 minutes when on high.

Ms. Eagan asked if the Health Department has a library of photos of gas vs. electric leaf blowers, and Director Foley responded that the Health Department asks companies for information on the electric models they use so that the Health Department can assess complaints with this information.

Dr. Rice motioned to close the hearing. 2nd by Dr. Walsh-Condon. All in favor.

Dr. Walsh-Condon motioned to accept the appeal and dismiss the violation. 2nd by Dr. Rice.

1. Dr. Walsh-Condon, Aye

3. Ms. Eagan, Aye

Vote: 3-0 (unanimous) in favor of the motion.

5. Hearing: Noise Abatement Bylaw Citation Appeal: John's Landscape Service Inc.; October
30, 2025 at 730 Mass Ave

Dr. Rice motioned to open the hearing. 2nd by Ms. Eagan. All in favor.

Director Foley presented the facts of the citation issued to John's Landscape Service based on events at 730 Mass Ave on October 30, 2025. Director Foley reported that she was the one to observe this violation firsthand, and it took place on town property.

Mr. Tighe confirmed that his company was using gas powered leaf blowers on this occasion, as it was his understanding that this was permitted when they are acting as an extension of the Town. Attorney Cunningham confirmed that the Bylaw explicitly exempts wheeled four stroke engine leaf blowers on town property in specific situations, but other gas powered leaf blowers, such as backpack gas powered leaf blowers, are not exempt.

Dr. Rice motioned to close the hearing. 2nd by Ms. Eagan. All in favor.

Dr. Rice asked if this would now be John's Landscape Service, Inc.'s first violation due to the successful appeals of the previous two cases. Director Foley reported that there was an earlier first violation in 2025, so this would be the company's second violation if an appeal is not granted, warranting a \$100 fine for the company.

Dr. Walsh-Condon motioned to uphold the citation. 2nd by Ms. Eagan.

1. Dr. Walsh-Condon, Aye
2. Ms. Eagan, Aye
3. Dr. Rice, Aye

Director Foley introduced the information provided by the owner of the Arlington Smoke Shop regarding a request to update Arlington's Tobacco regulations.

Dr. Walsh-Condon reported that this will be taken under advisement by the Board.

Dr. Rice asked if this would be within the Board's purview, and Dr. Walsh-Condon confirmed that these regulations fall under the purview of the Board.

Ms. Eagan asked if some of the definitions in the current iteration of the tobacco regulation are what the author of the correspondence is hoping might be changed. Director Foley confirmed this is accurate.

7. Hearing: Noise Abatement Bylaw Citation Appeal: Rose Landscaping and Construction LLC.; April 10, 2025 at 165 Scituate St

Dr. Rice motioned to open the hearing. 2nd by Ms. Eagan. All in favor.

Director Foley introduced the complaint and citation issued to Rose Landscaping and Construction LLC based on events at 165 Scituate St on April 10, 2025.

Nick Rose, owner of Rose Landscaping, was present and stated that he does not believe the photos included prove this was a violation. He also asked for clarification on how the Town

verifies the validity of these complaints. Dr. Walsh-Condon briefly described the process of receiving complaints through the Docusign form, and following up based on those reports.

Mr. Rose stated that in the photos, the leaf blowers might not have been on and reiterated that he does not believe the complaint is sufficient evidence for a citation. Dr. Walsh Condon stated that the signature required on each Docusign report is part of the verification that the report is accurate, per Town Counsel's interpretation.

Attorney Cunningham stated that the Board of Health is charged with the enforcement of this Bylaw and to determine if the evidence provided with the complaint is sufficient. He clarified that the content of the Bylaw is not up for debate at this time.

Dr. Walsh-Condon asked Mr. Rose whether he changes what machinery he uses based on each city or town's regulations. Mr. Rose confirmed that he does and that he has been using electric leaf blowers since the spring. Dr. Walsh-Condon stated that the photos with this complaint are just of the Rose Landscaping truck. Attorney Cunningham reiterated that at this time the Board just needs to decide if there is evidence to uphold the citation before them.

Ms. Eagan motioned to close the hearing. 2nd by Dr. Rice. All in favor.

From: Kylee Foley, Director of Public Health
Date: January 14, 2026
RE: Rabies Vaccine Exemption Request

Resident Carol Sweeney is requesting a dog licensing exemption for her dog, Roan, from the Town Clerk due to Roan's medical condition affecting his ability to get vaccinated for rabies. The resident produced a letter from a veterinarian stating the dog cannot get a rabies vaccine. According to Town's Bylaw, the Board of Health may provide an exemption in accordance with MGL C.140 s.145B (i.e., a letter from a veterinarian).

According to the [Town's Bylaw](#) (Title VIII - Public Health and Safety, Article 2 – Canine Control, Section 4 – Licensing): The Town Clerk shall not grant a license unless

- (i) the license applicant provides a veterinarian's certification or notarized letter that the dog has been vaccinated against rabies; or
- (ii) the dog is exempted from the vaccination requirement by the Town of Arlington Board of Health or the Town Clerk in accordance with [Section 145B of Chapter 140 of the General Laws](#).

MGL Chapter 140 Section 145B requires rabies vaccination for all domestic dogs, cats, and ferrets six months of age or older. Subsection (d)(i) states: "(d) A licensing authority may grant an exemption from this section for a dog, cat or ferret that: (i) the local board of health has declared exempt from the rabies vaccination requirement upon presentation of a veterinarian's certificate stating that because of an infirmity, other physical condition or regimen of therapy, such inoculation is considered inadvisable for a specified period of time for such reasons;"

Included with this memo please find a letter from Roan's veterinarian.

Recommendation: Approval of the exemption contingent upon the owner's submission of a veterinarian's letter certifying vaccination is inadvisable for the dog with the dog's license renewal applications.

Dear Ms. Foley,

Carol Sweeney of 166 Lake Street Arlington Massachusetts has asked me to send a letter to you requesting an exemption from the Rabies Vaccination for her dog "Roan", a 14-year-old Chihuahua Terrier cross, neutered male, weighing 6.5 pounds.

Roan is a tiny little dog with a marked sensitivity to medications. He has been to Angell Memorial MSPCA Hospital in Boston many times to evaluate his gastrointestinal tract and cardiac murmur. He has often had adverse reactions to injectable medications, vaccines and the allergy medication, Cytopoint. These reactions include loss of appetite, vomiting, black tarry stools, etc.

I believe his lifestyle precludes any significant exposure to Rabies. He is mostly an indoor dog.

Please contact me if you have any questions or require elaboration.

Thank you,
